AlwaysOn is excited to announce the 2010 AlwaysOn East Top 100 Private Companies. The AOE100 comprises East Coast companies pioneering in cloud computing and SaaS, digital media, and greentech.

It's with great excitement that we introduce the third annual AlwaysOn East Top 100 private companies. The AOE100 represent the top emerging companies from the East Coast that are demonstrating significant market traction and pursuing game-changing technologies in on-demand computing, digital media, and greentech.

The AlwaysOn editorial team, along with partners at the Blackstone Group, KPMG, Silicon Valley Bank, Sonnenschein, and industry experts across the globe, scoured the entrepreneurial community to identify the top 100 private companies that are taking old notions of doing things and forging solutions that will lead to industry shake-up and huge value-creation opportunities.

"After examining the companies that are on the AOE100 list, it's obvious that innovation is not only alive and well on the East Coast, it's accelerating in economic power and scope." says Tony Perkins, founder and editor of AlwaysOn. "The companies certainly represent some of the highest-growth opportunities in the private company marketplace."

The winners of this competition will be officially honored at:
